Genius Gyms
iOS Guide - July 2021

Congratulations on being accepted into the Genius Gyms BETA group! We hope you will really enjoy and benefit from our simultaneous exercise and neuroscience tasks.

Genius Gyms is currently in BETA mode and we are allowing a small exclusive group of people to try out our app and give us feedback before we go fully live.

Apple uses an app called TestFlight for BETA apps before they enter the App store. TestFlight is Apples default verified app to allow testing of apps before they are released to the full general public.

This document shows you how to install the Genius Gyms app on iPhones via Apples TestFlight verified app.

Below are some simple steps to follow to get started. Further support can be found at https://geniusgyms.com/support or by contacting support@geniusgyms.com
